Change in Place of Manufacture

Model SRN4018, SRN4018A and SRN5040 Semi-shielded Power Inductors

Riverside, California – February 10, 2021 – Effective July 10, 2021, the Model [SRN4018](#), SRN4018A and [SRN5040](#) Semi-shielded Power Inductor series will be manufactured at a facility located in the People's Republic of China, instead of Malaysia. The change in place of manufacturing for the listed series will allow Bourns to best realign the production capacity between these two plants.

The manufacturing plant in the People's Republic of China possesses the same quality certifications as the manufacturing plant in Malaysia, including ISO 9001, ISO 14001 and IATF 16949.

There will be no design, material or manufacturing process change for the affected series as a result of the change in manufacturing location. The form, fit, function, quality, reliability, and production lead time of these series will remain the same. The purchase order lead times and minimum / maximum order quantities will remain the same.

Samples from the new manufacturing location are now available for testing. The affected part numbers are listed on the following page.

Implementation dates are as follows:

Date that production of the affected series will cease at existing plant: **July 10, 2021**

Date that deliveries will begin from new plant: **July 11, 2021**

First date code using the above changes: **2128**
