

# Product Obsolescence Memo

**TBU® HIGH-SPEED PROTECTORS**

June, 2014

## Bourns® Model TBU-CX Series TBU® High-Speed Protectors to be Discontinued

In accordance with our ongoing product lifecycle management procedure, Bourns has identified select TBU® High-Speed Protector (HSP) products that will be transferred to an End of Product Life status. The Bourns® Model TBU-CX Series TBU® High-Speed Protectors will be discontinued with immediate effect. Availability of TBU-CX Series products is limited to (i) work-in process on Bourns' production lines, (ii) stock on hand in Bourns' warehouse(s) and (iii) stock available through Bourns' authorized distributors.

The Bourns® Model TBU-CA Series High-Speed Protector is recommended as the alternate model. The Model TBU-CA Series is also a single channel bidirectional TBU® HSP, but with a fixed trigger current. Products purchased during this End of Product Life transition period will be covered by Bourns' standard warranty. Last Time Buy orders for the discontinued products will be considered non-cancellable and non-returnable.
